General information

Article number : 12427490 Hybrid monitor light

Description : Monitor light with adjustable angle and an asymmetrical optical design that only illuminates the desk and eliminates reflective glare off the screen found with most regular desk lamps. With 84 high-quality LED beads, this lamp emits uniform, soft and non-flickering light, which can relieve eye fatigue and protect your eyes. The light fits any monitor with a thickness from 3mm to 10mm, without a need for screws that may damage the monitor. Adjustable brightness from 5% to 100% with a 2800K-6500K colour temperature. The warm light lets you relax and the cool light allows you to concentrate and boosts work efficiency. The color rendering index of the monitor light is more than 85, which can restore most screen colors. Delivered in a premium kraft paper box with a colourful sticker. Aluminium.
